<b>8.3</b>	<b>AVERAGE TOTAL SCORE</b>						

## Comments and suggestions

I have the following comment and/or suggestions in addition to questions already answered:

### Workshop Sessions:

- Good
- The history of EU directives and filling the questionnaire could be explained more effectively. I couldn't get the benefit that I expected. If the questionnaire would be sent previously, it would be easier to foresee the problematic issues and to solve them.
- There were some problems with the time management, sessions could be planned better. The technical information was very helpful.
- This workshop should be done like 5 years ago.
- It will be more effective if the sessions are shorten and there are more and shorter breaks.
- Session time could be longer; time was not enough for the sessions.
- It would be better if there were desks.
- Time management should be done; time for some of the presentations were exceeded.
- More time could be allocated for group action.
- Much subjects/short time. The workshop could be more fun.

---

### Facilitators:

- Having no meeting ritual in the beginning was ungraceful.
- We had the program distributed but during the opening speech, the program could be summarized verbally.
- Good
- They tried to cater to us. Many thanks.
- I'd like to thank to Ms Ulku Fusun Erturk and Neslihan Agartan for their interest and sharing their knowledge.

- 
- Thank you.
  - They are kind and good. Thank you.
  - We'd like to thank you for your endeavour for making the repayments on time.

---

**Workshop level and content:**

- Good
- The part of the nature and human health in the scope of workshop should be increased.
- I got the important technical knowledge. Especially, the experiences from different countries are very useful, these can be widen.
- It was good and the atmosphere was warm.
- It would be better if there was a chance to sightsee the city.
